

# **Entrepreneurship and Innovation**

## **The Role of Universities**

**Wolfhard Wegscheider**

**12 December 2013**

# Outline

- „Definition“
- Innovation: European Problems & Approaches
- Montanuniversitaet Leoben
- The Elements of an Innovation System
  - Boundary Conditions and Mechanisms
  - Specific Implementation and Operation
- European Institute of Technology (EIT) – Knowledge and Information Communities

# „Definition“

- *"Innovation is the process of finding economic applications for inventions"*

***Joseph A. Schumpeter, 1911 (Austrian)***

- *Die Umwandlung von Geld in Wissen ist Forschung, die Umwandlung von Wissen in Geld ist Innovation*
- *The transformation of money to knowledge is research, the transformation of knowledge to money is innovation*

***Thomas Mirow (German)***

# Main factors hampering innovation (in Europe)

- lack of access to finance,
- too high costs of innovation and
- lack of incentives facilitating cooperation between actors

## To a lesser extent

- innovation efforts of enterprises are considered to be hampered by difficulties in finding partners for innovation and
- lack of knowledge about support instruments

[http://ec.europa.eu/enterprise/policies/innovation/files/swd\\_effectiveness\\_en.pdf](http://ec.europa.eu/enterprise/policies/innovation/files/swd_effectiveness_en.pdf)

# Europe needs more entrepreneurs

- ***‘Majorities in the US, the European Union, and China associate themselves with attitudes often ascribed to entrepreneurs. Americans, however, are more likely than those in the European Union and China to see themselves as risk takers, competitive, and confident they can accomplish difficult tasks.’***  
(Gallup World, 2010)

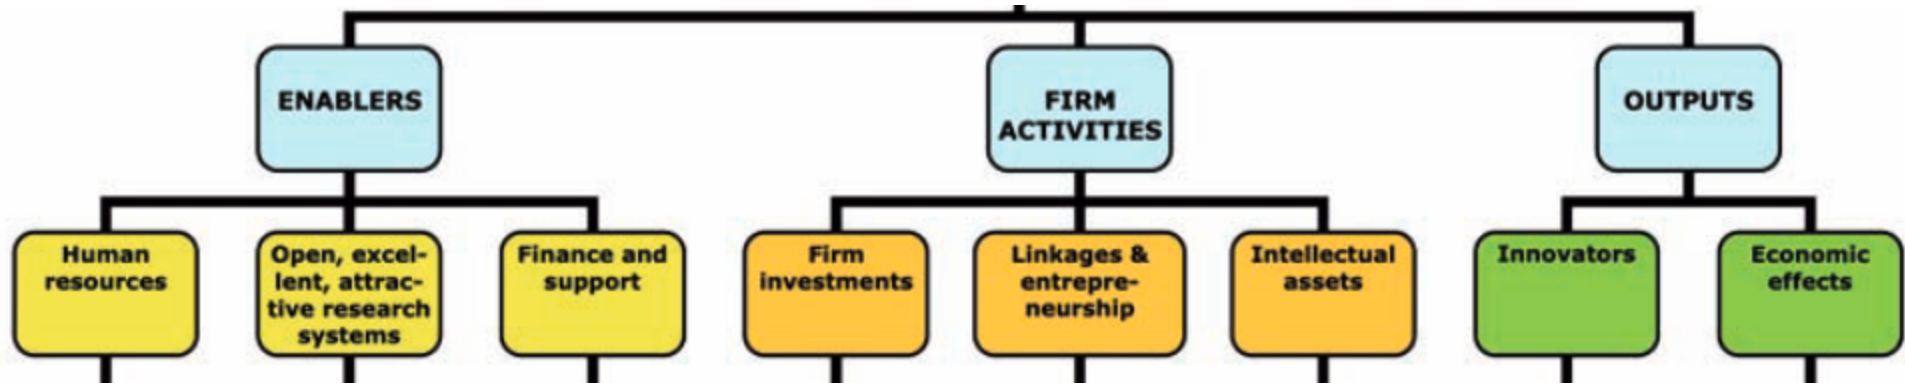

<http://eit.europa.eu/entrepreneurship/>

# Innovation Union Scoreboard 2013

- **Ranks Member States**
  - by 25 indicators
  - clustered in 8 innovation dimensions
- **Compares performance to major global competitors**

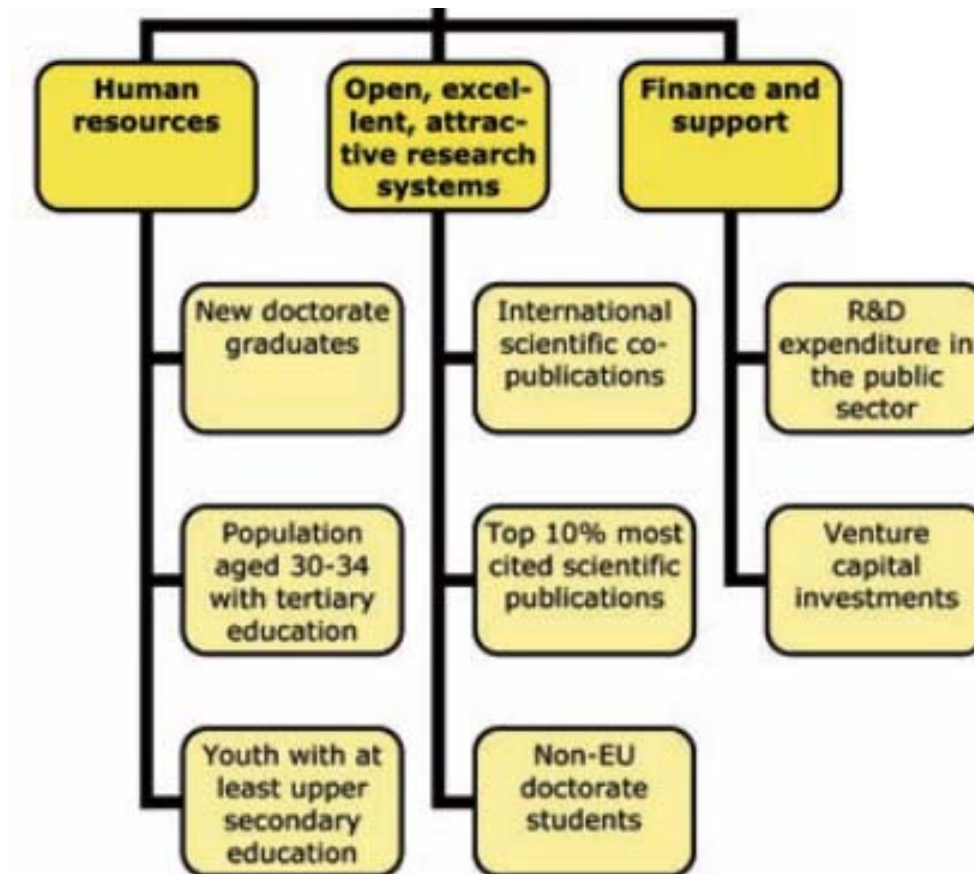

[http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013\\_en.pdf](http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013_en.pdf)

# Eight dimensions, 25 indicators

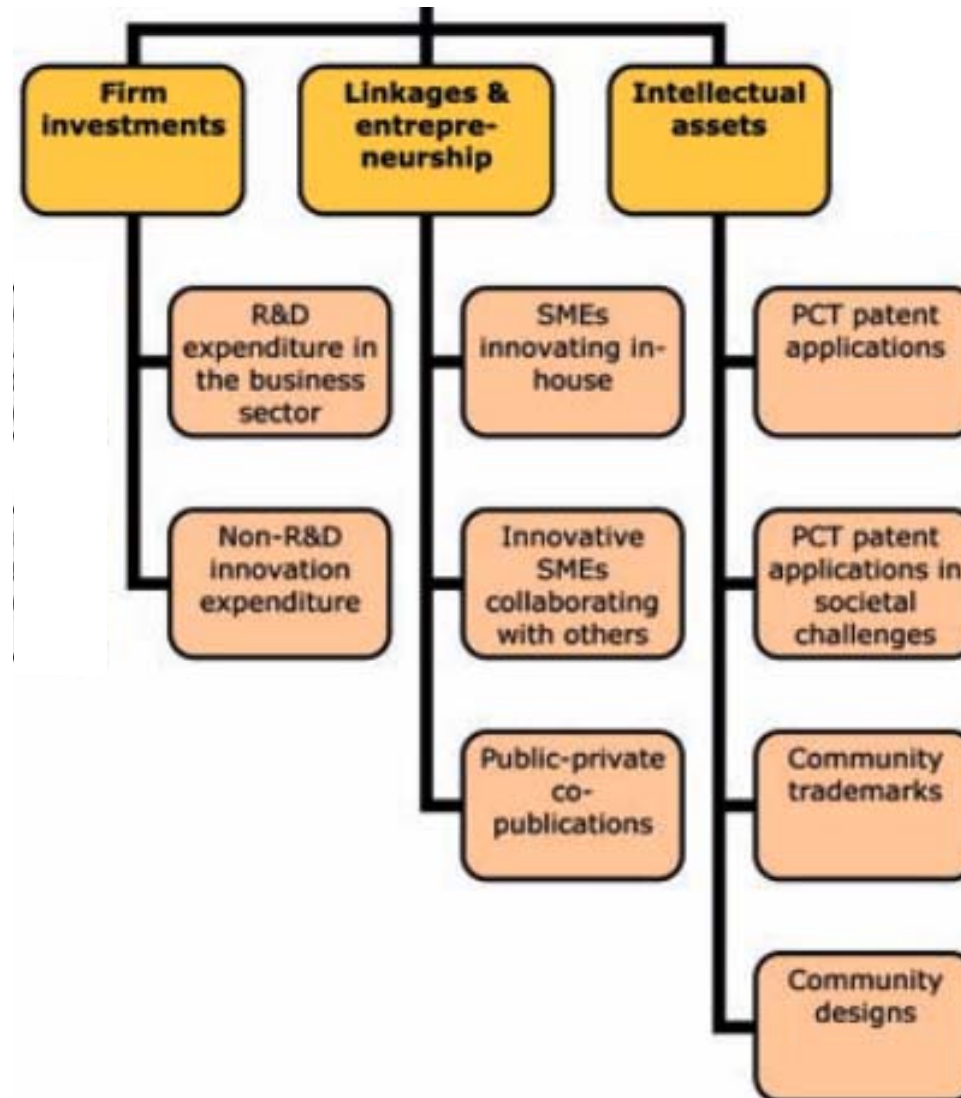

[http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013\\_en.pdf](http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013_en.pdf)

# Innovation Enablers

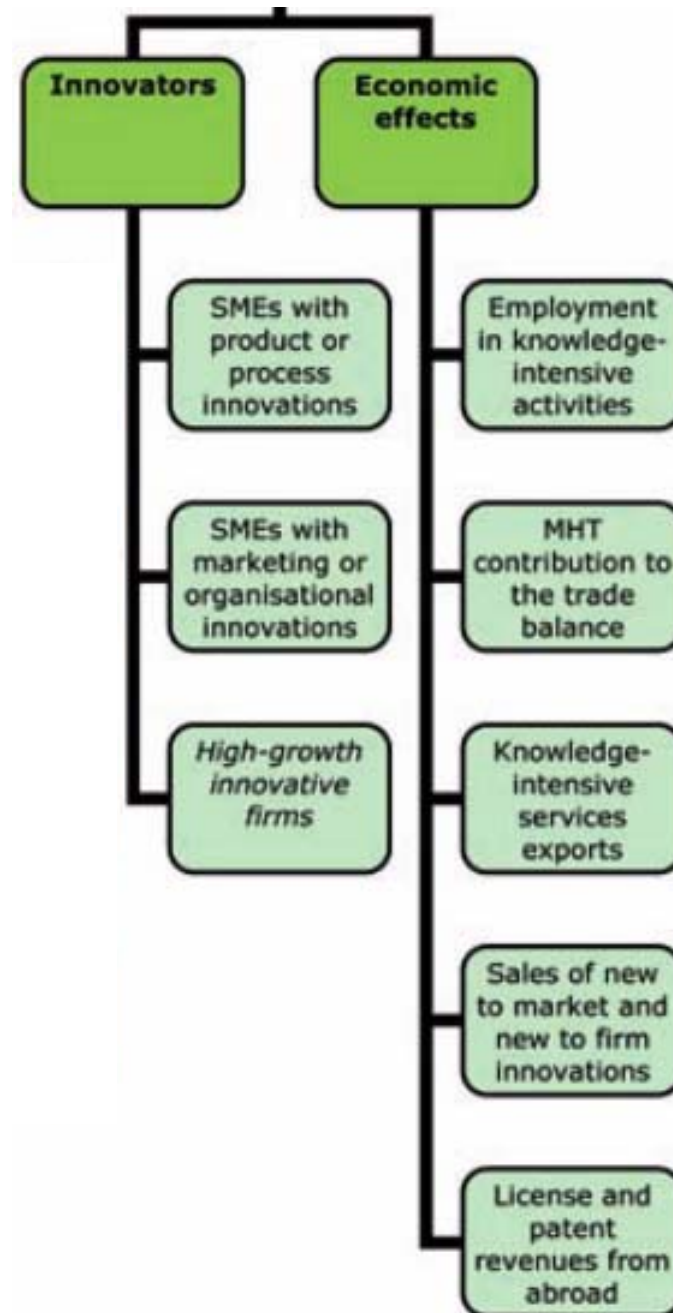

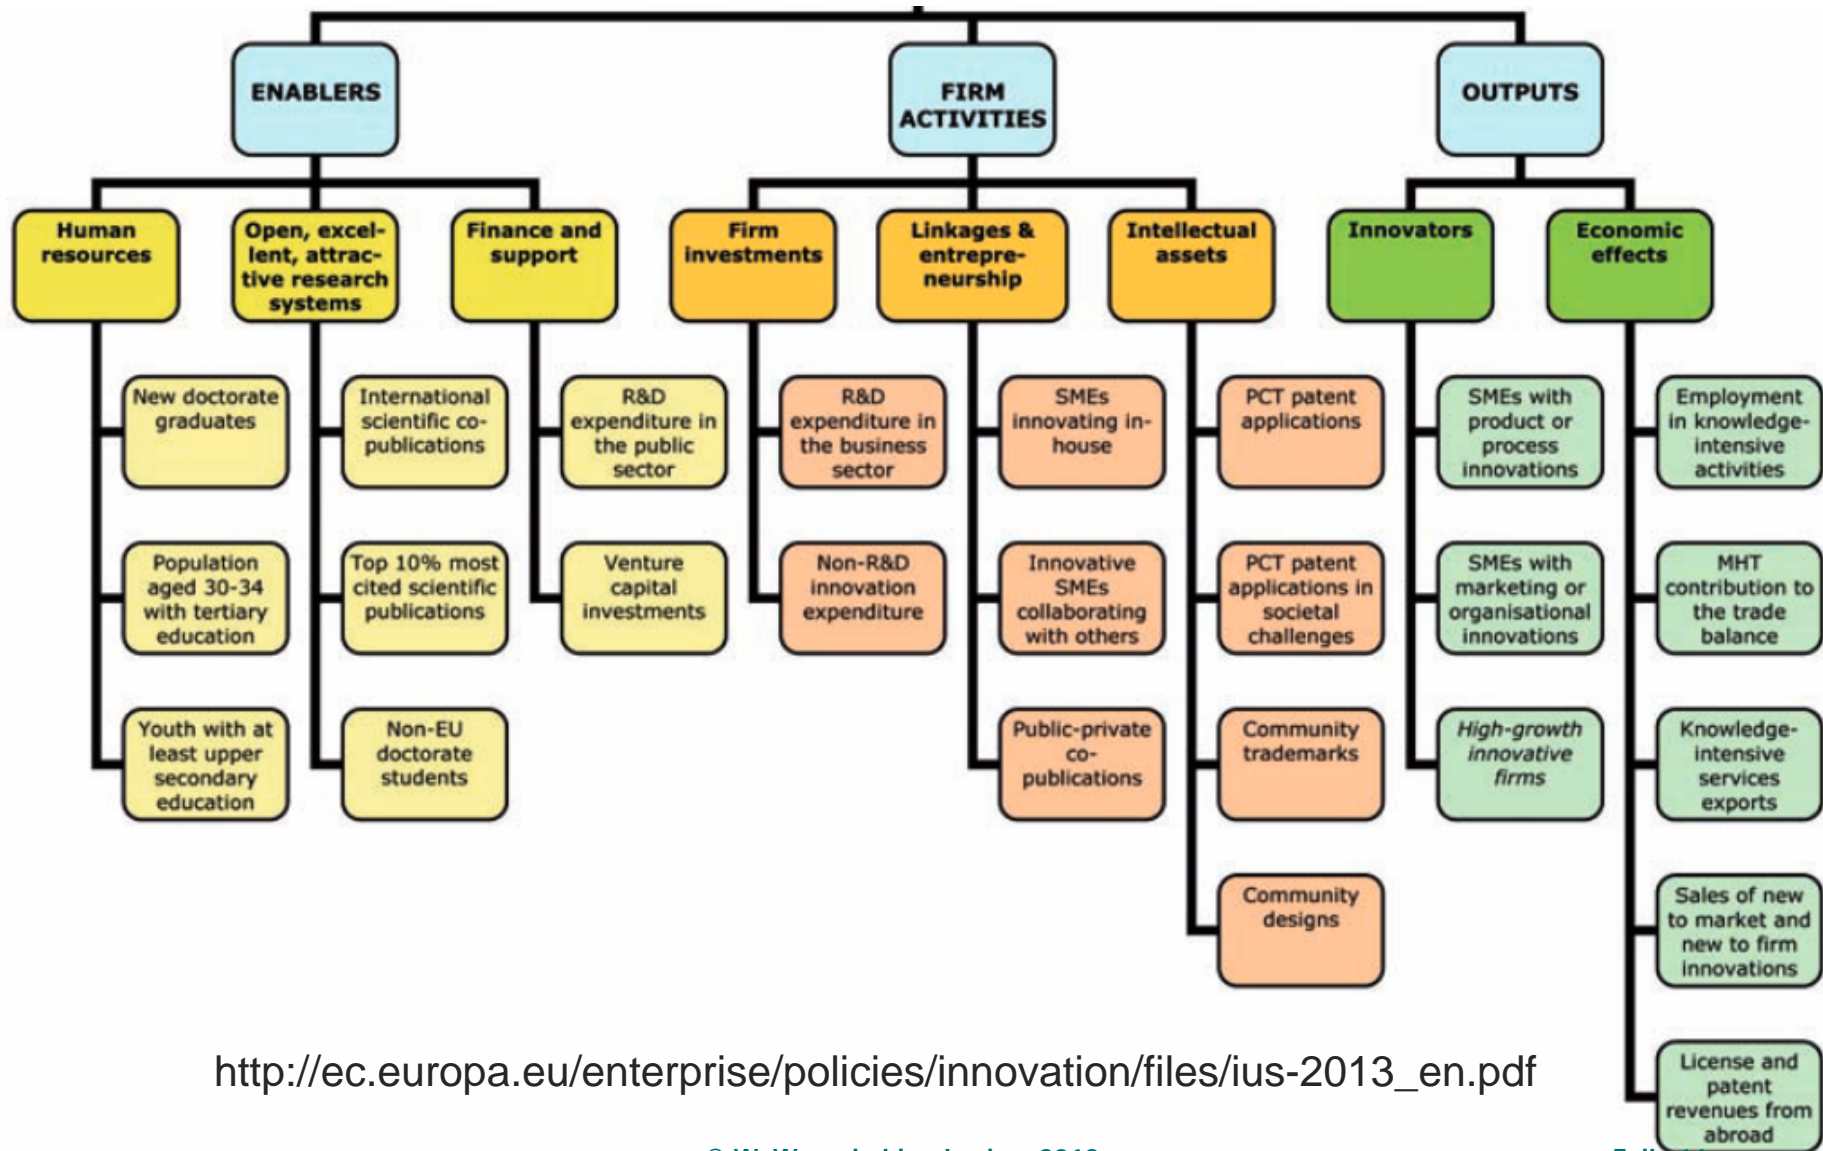

# Innovation, Firm Activities

# Innovation Output

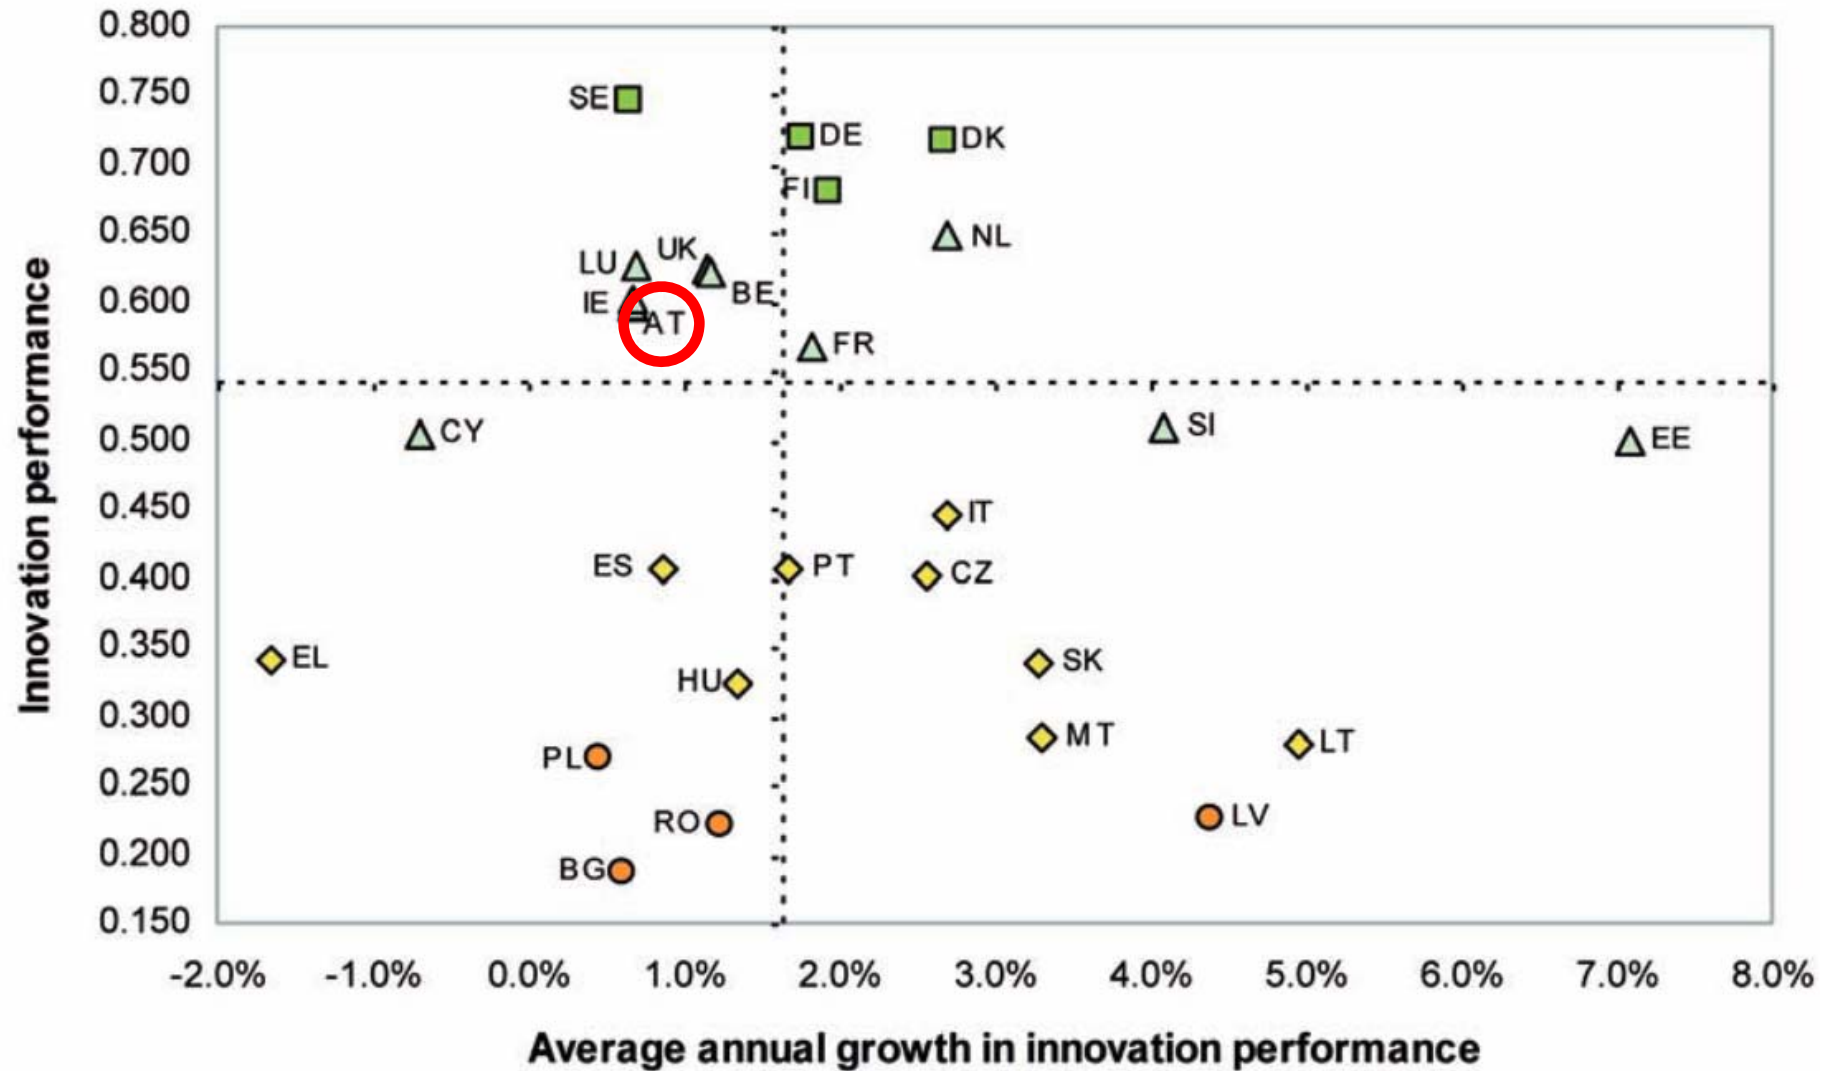

# Eight dimensions, 25 indicators

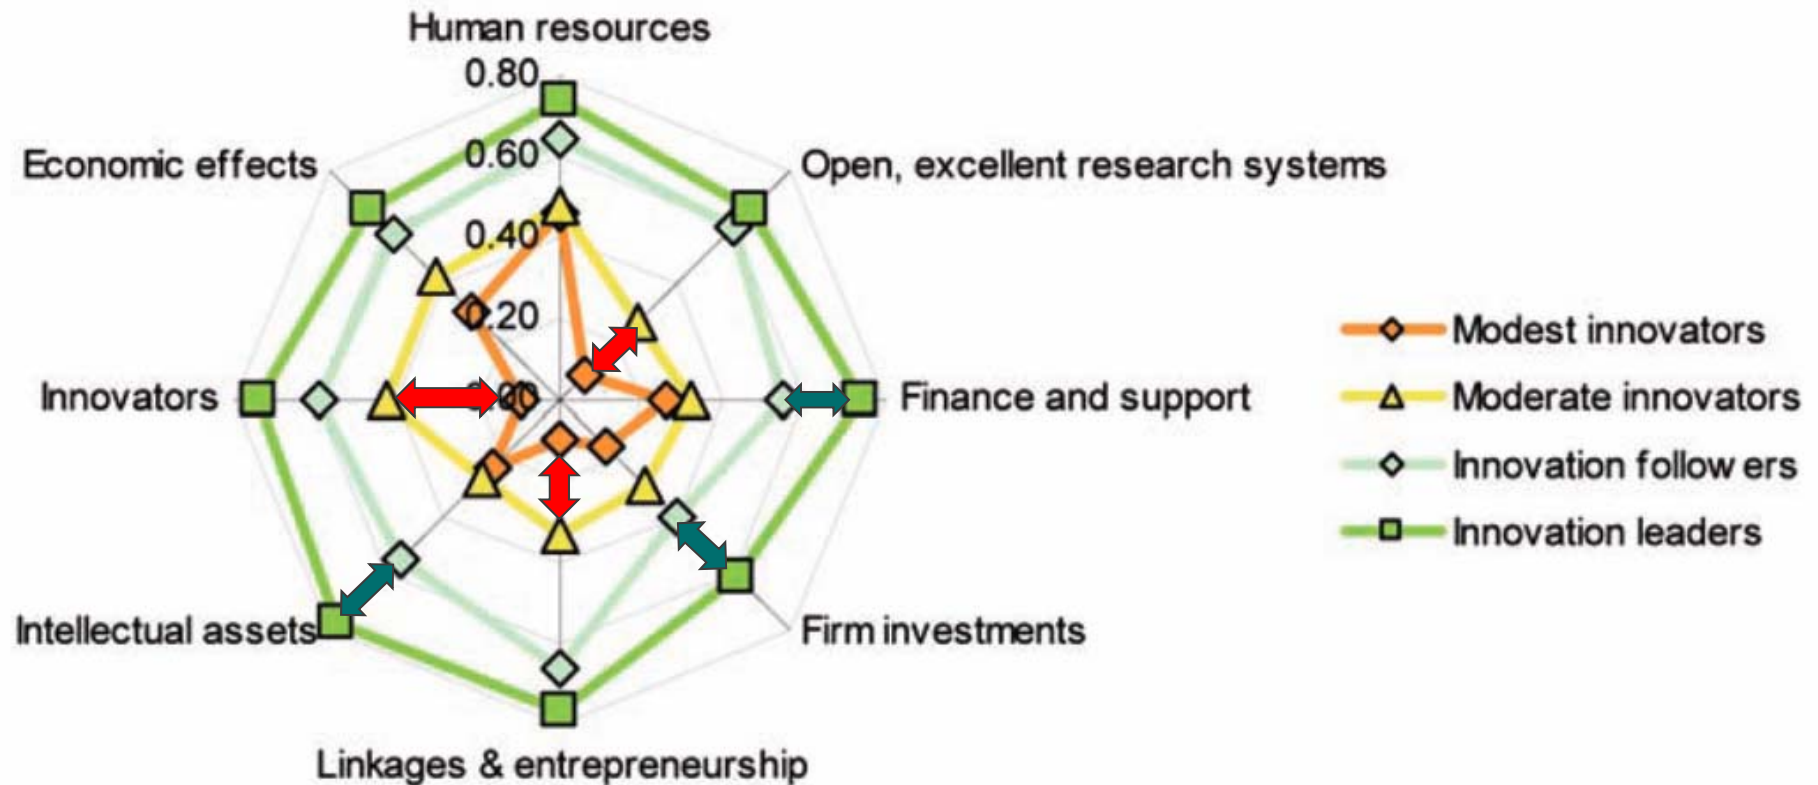

[http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013\\_en.pdf](http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013_en.pdf)

# Innovation Performance

# Innovation Performance in each Dimension

[http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013\\_en.pdf](http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013_en.pdf)

# Europe's International Performance

[http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013\\_en.pdf](http://ec.europa.eu/enterprise/policies/innovation/files/ius-2013_en.pdf)

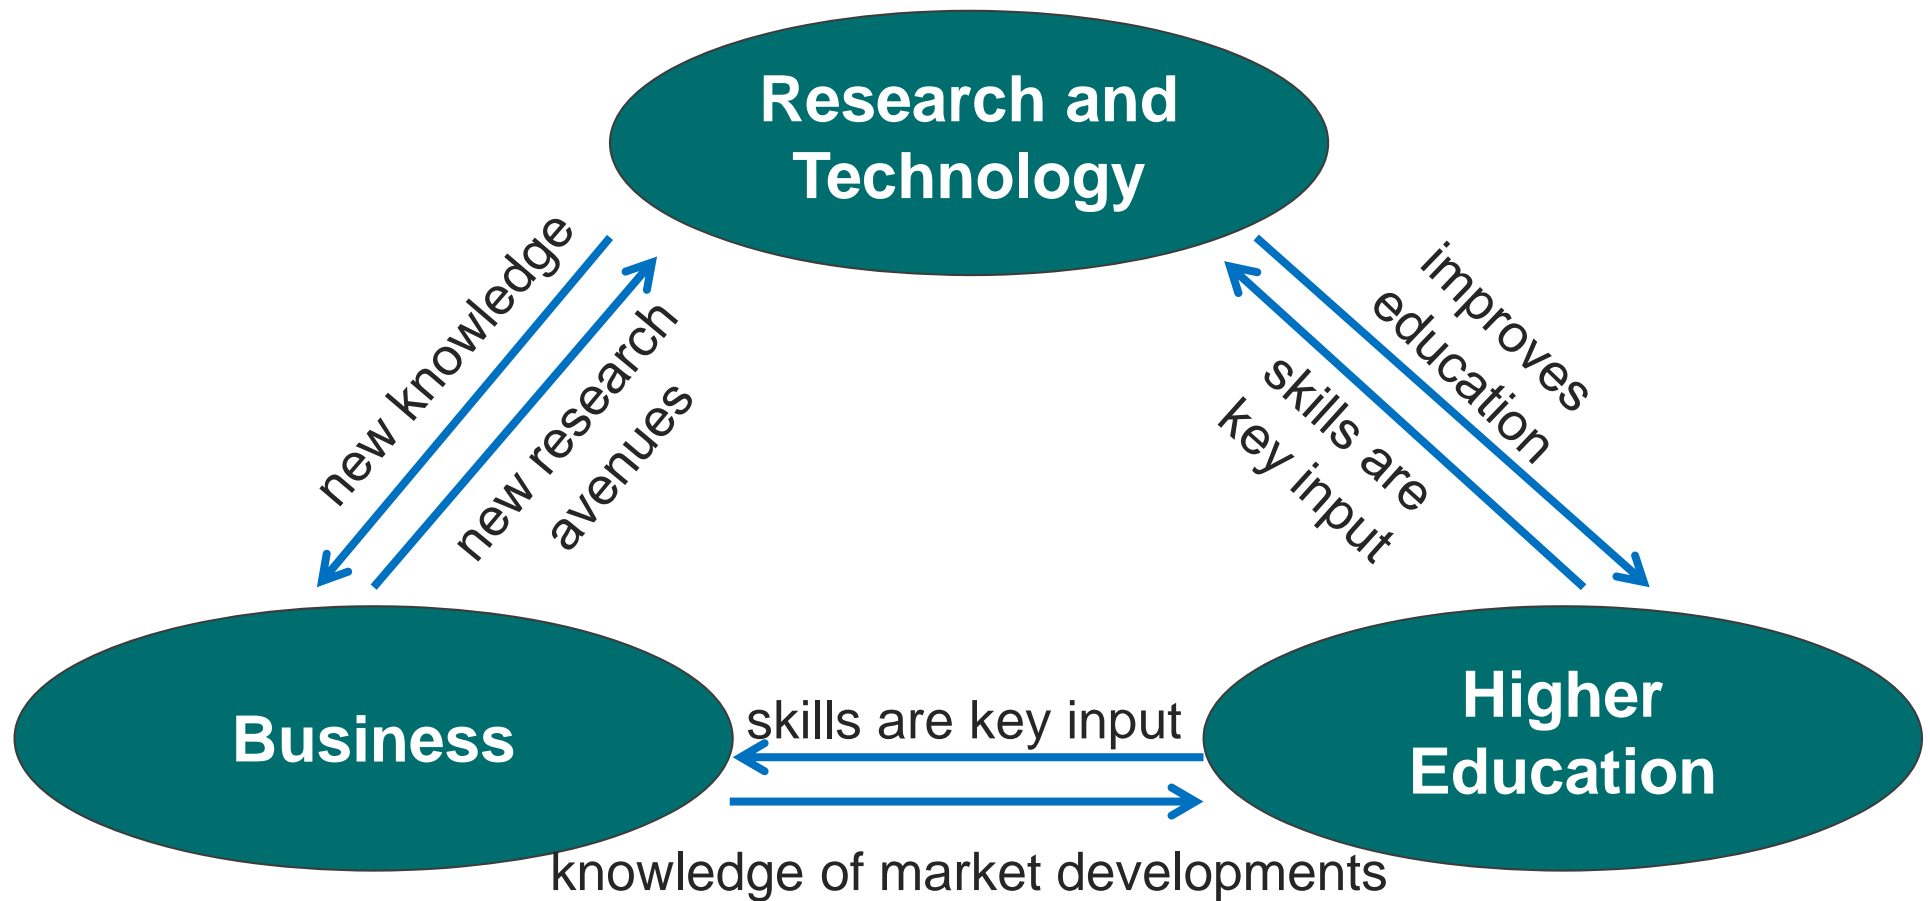

# Europe is „reinventing innovation“

- by coupling academic research and knowledge production with an entrepreneurial spirit and
- a greater interdisciplinary focus on social and organisational practices and innovation end-users

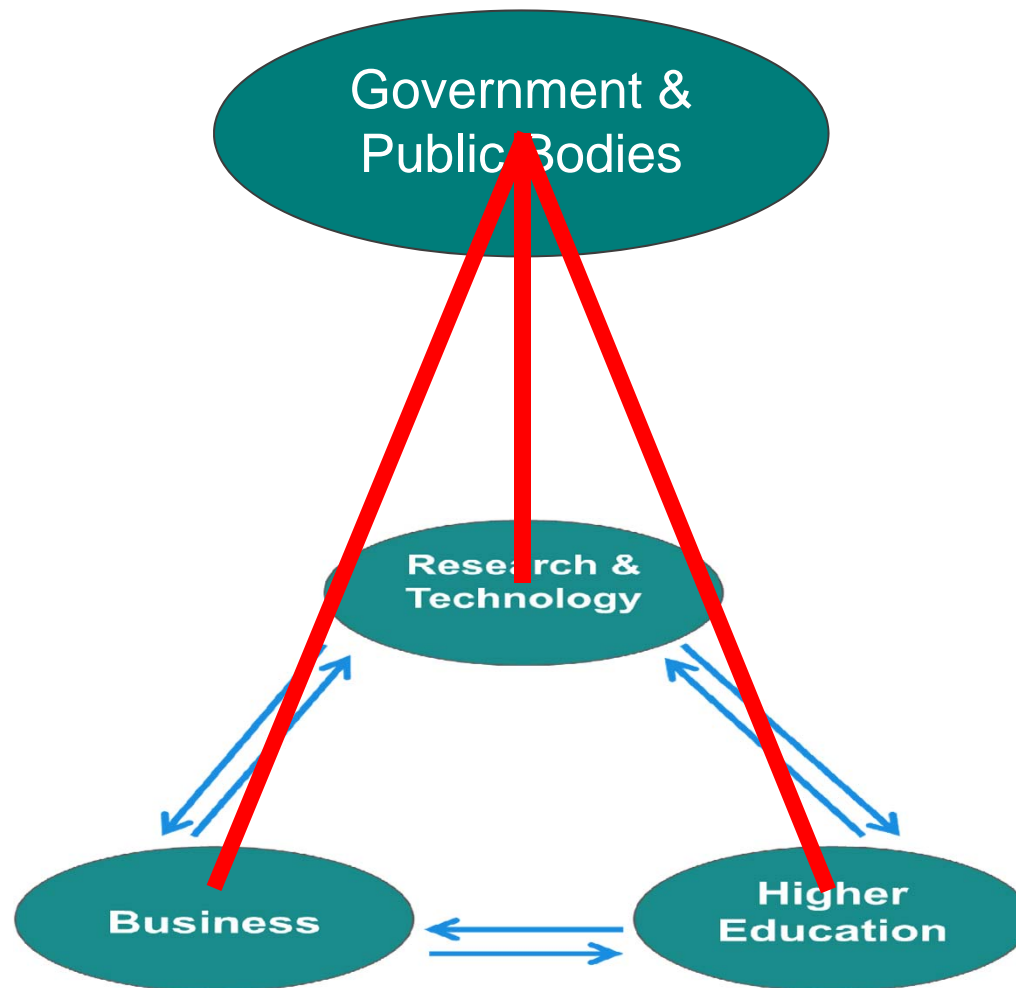

Source: ESF and COST, RESCUE (2011)

# Short History of Montanuniversität

- **1840: established in Vordernberg as „Steiermärkisch-Ständische Montanlehranstalt“ under the auspices of Archduke John of Austria for metallurgy and mining**
- **1849: Transfer to Leoben**
- **1904: Start of doctoral program**
- **Since 1955: Broadening of the fields of studies**
- **1975: Montanuniversität Leoben**
- **2003: (New) Universities Act: „New Public Management“**

# New Public Management (after Ziegele)

# Montanuniversität: Fields of studies

# Numbers, Figures and Facts

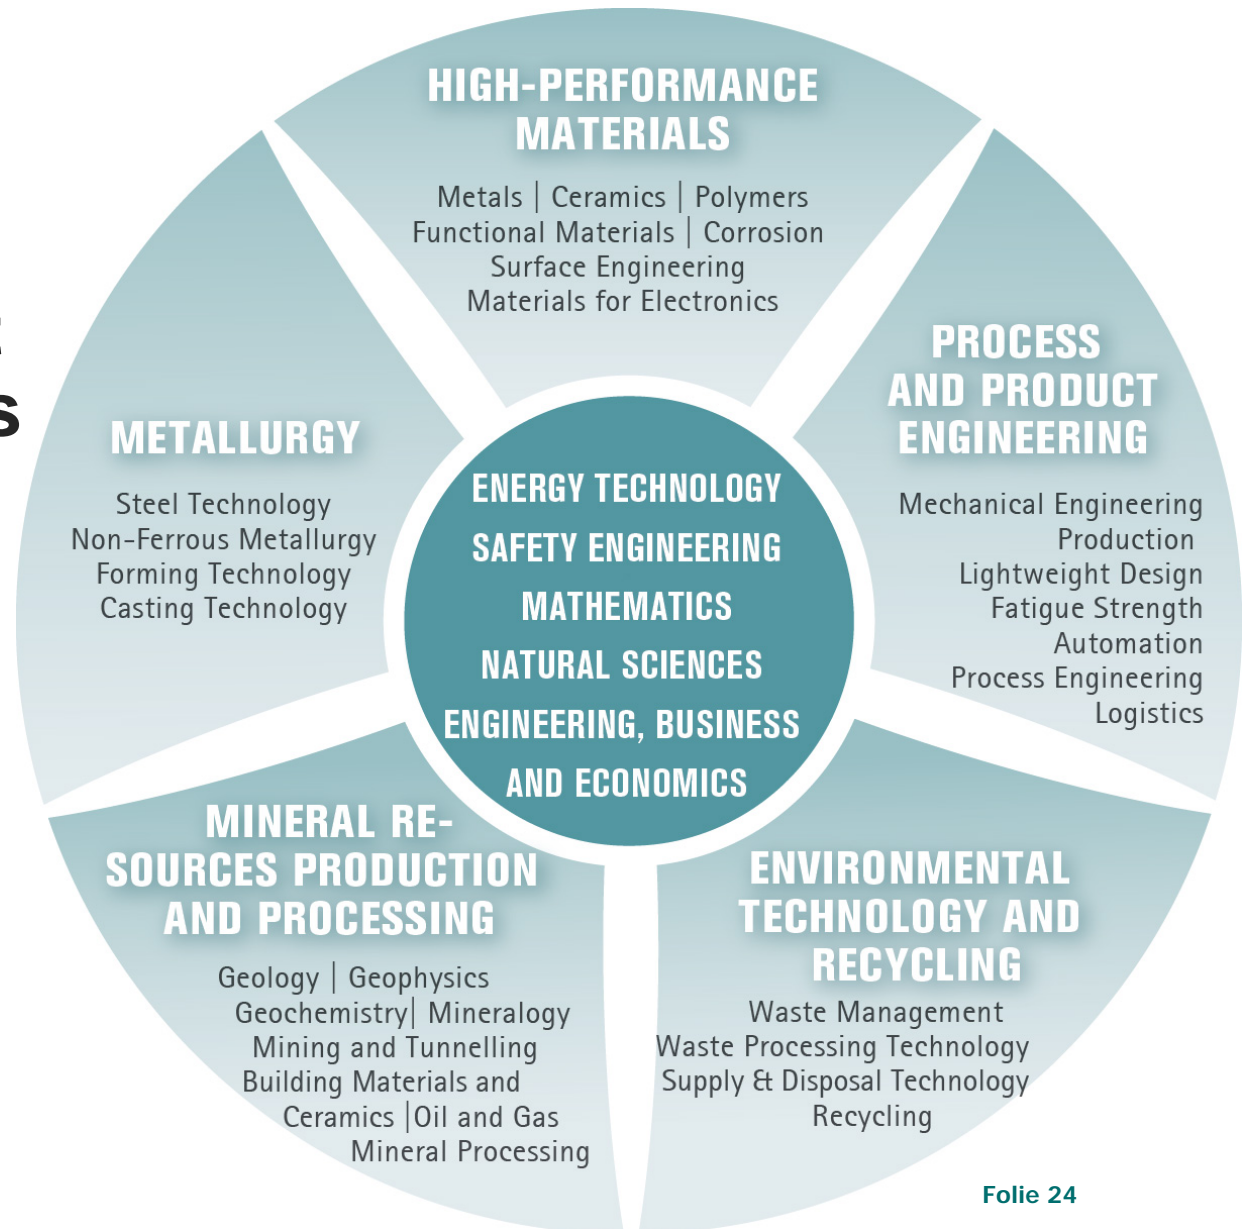

- **Enrollment: ~ 3500 students**  
(women ~ 23 %)
- **Winter semester 2013/14: ~ 500 beginners**
- **~ 13 % students from abroad**
- **~ 350 graduates per year (Bachelor, Master, Doctorate)**
- **Federal funds 45 Mio €, additionally 26 Mio € from fees, contracts and grants per year**

# Numbers, Figures and Facts

- **1052 employees, of which 44 full professors, 712 scientific staff, 404 general employees**
- **About 55000 m<sup>2</sup> floor space**
- **5 Christian-Doppler Laboratories**
- **3 Competence Centers in COMET-Program**
- **1 Spin-out center ZAT**
- **1 Center for Technology Transfer**
- **More than 300 industrial partners worldwide**

# Leitmotiv of Montanuniversität

**Research  
establishment  
with the highest  
aims and a focus  
along the  
industrial chain  
of added value**

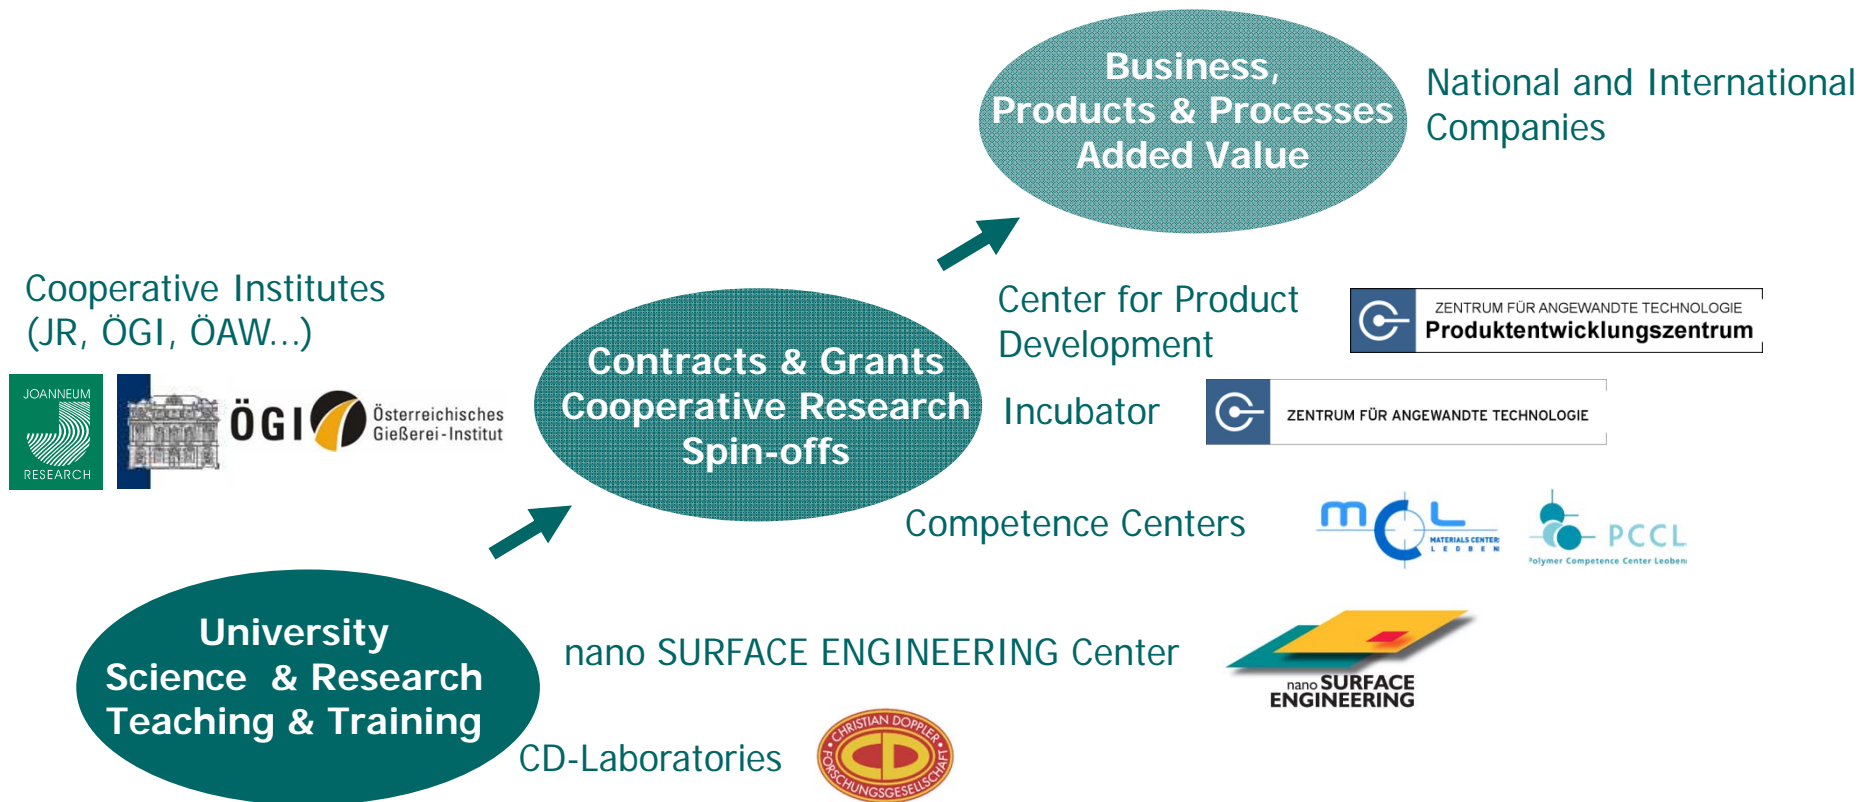

# Outline

- „Definition“
- Innovation: European Problems & Approaches
- Montanuniversitaet Leoben
- **The Elements of an Innovation System**
  - **Boundary Conditions and Mechanisms**
  - **Specific Implementation and Operation**
- European Institute of Technology (EIT) – Knowledge and Information Communities

# Programs and Accompanying Measures

- **Competence centers: COMET**
- **Temporary specialized laboratories: Christian Doppler Laboratories**
- **Technology transfer centers**
- **Incubators, spin-out centers**
- **Venture capital**
- **Thematic networks**
- **IP-Regulations**
- **Individual grants: Erwin Schrödinger**

# From basic research to industrial production

# Six active CD-Laboratories

- **Early Stages of Precipitation**
- **Advanced Process Simulation of Solidification and Melting**
- **Localized Corrosion**
- **Optimisation and Biomass Utilization in Heavy Metal Recycling**
- **Highly Efficient Composite Processing**
- **Functional and Polymer Based Ink-Jet Inks**

## Advantages of CD-Laboratories

**An applications oriented basic research approach helps to stay in touch with leading industries**

# Past CD-Laboratories

- **Advanced hard coatings**
- **Building materials with optimized properties**
- **Functional design of materials**
- **High performance ceramics**
- **Applied thermo-fluid dynamics**
- **Sensoric measurement techniques**
- **Fatigue Analysis**
- **Local analysis of deformation and fracture**
- **Metallurgical fundamentals of continuous casting**
- **Secondary metallurgy of non-ferrous metals**
- **Modelling and simulation of materials**

# Development in COMET Competence Centers for Excellent Technologies-Program

- K2-Center „Integrated Research in Materials, Processing and Product Engineering“, MCL
- K1-Center „Metallurgy and Environmental Engineering“
- K1-Center „Polymer Competence Center Leoben“, PCCL

# Aims of Spin-out Center - ZAT

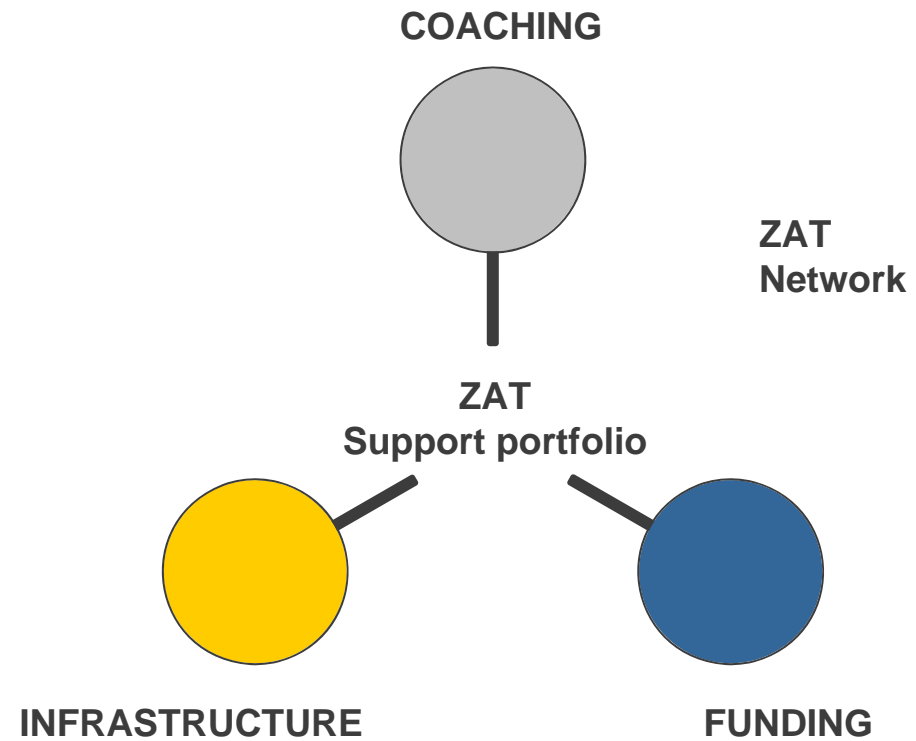

- ④ **Building bridges between research and economy by supporting technology-orientated business foundations**
- ④ **Making people interested in technology-orientated foundations**
- ④ **Initiation of 5-7 new entrepreneurial projects a year**
- ④ **High quality standard of supported projects**
- ④ **Accompanying them with advice in the course of their implementation**
- ④ **Bridging of the pre-seed/seed phase and growth phase**

# Spin-out Center – ZAT: Support and Coaching

- ④ **Business development**
- ④ **Application for public and private funding**
- ④ **Access to the center's expert network**
- ④ **Technology transfer**
- ④ **Advice on different levels**
- ④ **Qualification and training program**
- ④ **Networking platform**
- ④ **Individual support**
- ④ **Project controlling**

# ZAT Support Portfolio

# How to become a ZAT-entrepreneur:

- ④ **Presentation of the idea**
- ④ **First check and discussion of the idea and the business concept**
- ④ **Elaboration of the business plan based on ZAT criteria**
- ④ **Presentation of the business plan to jury**
- ④ **Funding contract**
- ④ **Provision of mentors for the project**
- ④ **Realization of the project (1.5 to 2 years in ZAT)**
- ④ **Half yearly presentations, controlling meetings**

# ZAT Funding Scheme (in €)

## Product Development:

- ☞ PreSeed: up to 15.000,- subsidy
- ☞ Seed: up to 20.000,- subsidy and 40.000,- loan
- ☞ Growth: up to 20.000,- subsidy and 40.000,- loan

## Service Provider:

- ☞ PreSeed: up to 15.000,- subsidy
- ☞ Seed: up to 20.000,- subsidy and 40.000,- loan

# ZAT Projects

**ferroDECONT** | [www.ferrodecont.at](http://www.ferrodecont.at)

solutions for decontamination of abandoned industrial sites, as well as the treatment of heavy metal polluted industry and process water

**CleverContour** | [www.clevercontour.com](http://www.clevercontour.com)

rapid prototyping method for personalized wheelchair-seats and protective equipment

**IM-Polymer** | [www.impolymer.at](http://www.impolymer.at)

"Polymerpapier®", a sustainable, synthetic plastic film made from sustainable raw materials as an environmentally friendly alternative to conventional petrochemical plastics and cellulose paper and aluminium composites

**SeaBear – diving technology** | [www.seabear.com](http://www.seabear.com)

new technologies for novel underwater instrumentation like diving computers, head-up displays and rebreathers

# ZAT Projects, 2

**SCH.EPP OG** | [www.schepp.at](http://www.schepp.at)

physical therapy device which promotes neuroplasticity for stroke patients who are suffering from immobility resulting from a stroke

**EcoCan GmbH** | [www.ecocan.at](http://www.ecocan.at)

energy-efficient lighting concepts with optical foils and reflectors

**KSZ GmbH** | [www.ksz-gmbh.at](http://www.ksz-gmbh.at)

support in the field of prototype-optimization and batch-production

**SYNVO GmbH** | [www.synvo.com](http://www.synvo.com)

next generation of speech synthesis solutions for use in various mobile devices, like smart phones, tablet PCs or navigation devices

**iam-gum** | [www.iam-gum.com](http://www.iam-gum.com)

development and production of 3D-chewing gum with injection moulding

# ZAT Projects, 3

**DCES Dynamic components KG** | [www.dynamic-dces.at](http://www.dynamic-dces.at)  
components for supervising and regulating biogas plants on a new level

**TreeChip GmbH** | [www.treechip.com](http://www.treechip.com)  
turnkey logistic solutions for the Christmas tree growers based on radio frequency microchips technique

**I'n'stein Research & Development GmbH** | [www.i-n-stein.com](http://www.i-n-stein.com)  
development of mirror-concentrating solar collectors

**Xohana e.u.** | [www.xohana.com](http://www.xohana.com)  
internet platform based on simple intelligent suggestion interface technology

**Sailmon GmbH** | [www.sailmon.com](http://www.sailmon.com)  
high performance electronics and race computers for yachts

# ZAT Projects, 4

**FronTone GmbH** | [www.frontone-automotive.com](http://www.frontone-automotive.com)

test systems for vehicle interior and front testing, especially in the areas of occupant and pedestrian protection

**B4b-highway GmbH** | [www.b4b-highway.com](http://www.b4b-highway.com)

internet platform supporting sales in the field of metalworking

**Lösch Cellular Engineering Ziviltechniker GmbH** | [www.lce.co.at](http://www.lce.co.at)

construction units out of regular cellular materials

**Makava delighted GmbH** | [www.makava.at](http://www.makava.at)

Makava Bio Delighted Ice Tea based on mate tea

**Mettop GmbH** | [www.mettop.com](http://www.mettop.com)

process optimization in nonferrous metallurgy - pyro- and hydrometallurgy of copper, as well as optimization work in the area of furnace construction

# ZAT Projects, 5

**NGS – Neuro Genetic Solutions GmbH** | [www.bestneural.net](http://www.bestneural.net)

development and application of neural network based software solutions for detection and memorizing relationships in data and for sustainable acquisition of human experts' know-how and experience

**OXY3 – Ozongeräte Produktion GmbH** | [www.oxy3.at](http://www.oxy3.at)

new processes and products in the areas of disinfection and sterilization

**Proionic GmbH** | [www.proionic.com](http://www.proionic.com)

innovative processes driven by ionic liquids (fluid salts behaving like solids)

**Mine-IT Sanak-Oberndorfer GmbH** | [www.mine-it.at](http://www.mine-it.at)

Data management system for raw materials

**pro aqua – Diamantelektroden Produktion GmbH** | [www.proaqua.cc](http://www.proaqua.cc)

diamond electrode for the supply of clean water as well as quality assured liquid media and purified waste water for discharge to the environment

# ZAT Projects, 6

**Successfactory management coaching gmbh** |

[www.successfactory.cc](http://www.successfactory.cc)

Consulting, coaching and training regarding quality management, innovation and engineering

**APC – advanced polymer compounds** | [www.a-p-c.at](http://www.a-p-c.at)

reactive modification (impact modification, fibre reinforcement) of engineering plastics like polyamides or polyester

**GEWOTECH technology Ingenieure GmbH** | [www.gewotech.at](http://www.gewotech.at)

analyses of manufacturing processes, supported by exact simulation calculations

**SimCat Technologies** | [www.simcat-tech.com](http://www.simcat-tech.com)

IT-Solutions in the field of data security

**4a engineering GmbH** | [www.4a-engineering.at](http://www.4a-engineering.at)

concept finding and optimization of product ideas with a focus on plastics engineering and materials science

# Outline

- „Definition“
- Innovation: European Problems & Approaches
- Montanuniversitaet Leoben
- The Elements of an Innovation System
  - Boundary Conditions and Mechanisms
  - Specific Implementation and Operation
- **European Institute of Technology (EIT) – Knowledge and Information Communities**

# European Institute of Technology (EIT)

- established in 2008
- *„to increase European sustainable growth and competitiveness by reinforcing the innovation capacity of the EU“*
- operates through distributed networks of „Knowledge and Innovation – Communities (KIC)“

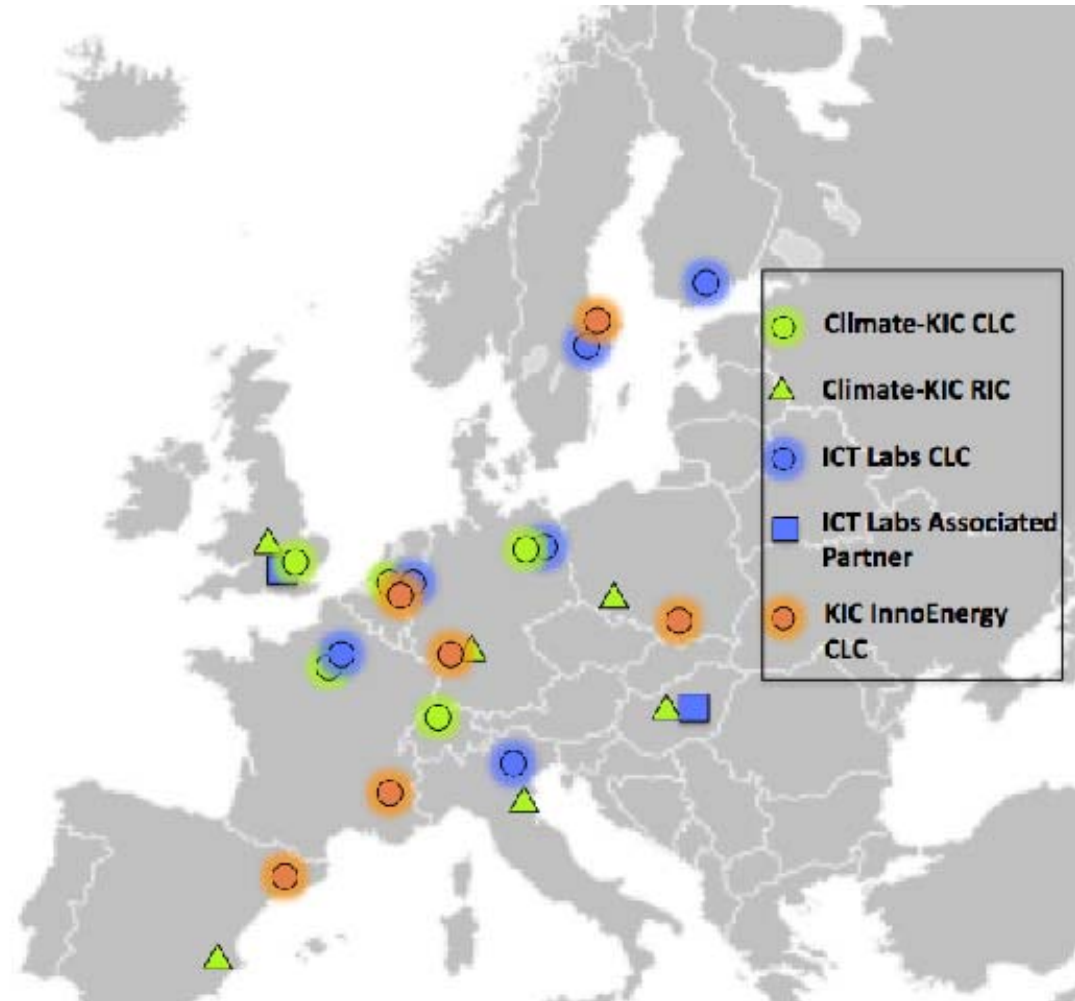

Source: EIT Regulations, 2008

# EIT - Knowledge and Innovation Communities (KIC)

- Climate-KIC
- EIT ICT Labs
- KIC InnoEnergy

## Planned 2014:

- **Raw Materials**
- **Healthy Aging**

[http://eit.europa.eu/fileadmin/Content/Downloads/PDF/Key\\_documents/EIT\\_publication\\_Final.pdf](http://eit.europa.eu/fileadmin/Content/Downloads/PDF/Key_documents/EIT_publication_Final.pdf)

# EIT Entrepreneurship

- **Fostering the development of new businesses**
- **Organising a European-wide specialised business support that is committed to finding the first customer for young ventures**
- **Accelerating time to market of innovations through demonstration actions, facilitating experience labs and demand-side measures**

<http://eit.europa.eu/entrepreneurship/>

# Conclusion: The Role of Universities

- Education and training for researchers, inventors and innovators
- Provision of expertise
- Knowledge pool
- Scientific and technological trend scout
- Source of scientific critical mass
- Major regional investor
- Companion in first steps of inventors
- Understanding and reflection of innovation

**Thank you for your interest**
